# INSTALLATION

## practical and easy

### Materials

- 1 half sphere
- Galvanized iron pipe  $\frac{3}{4}$ " x 700 mm
- Plug
- Assembly adhesive (not included)

### Preparations

Remove stones and other uneven surfaces so the half sphere can lie flat.

### Assembly

1. Place the half sphere on a flat or sloped surface with the flat side facing down.
2. Apply assembly adhesive inside the hole along the edges.
3. Drive the galvanized iron pipe through the hole and into the ground. Leave enough space for the plug afterward.
4. Apply assembly adhesive inside the hole to secure the plug.
5. Insert the plug.
6. Remove any excess adhesive residue.
