

# Mounting instructions hemisphere

## Pieces:

- 1 piece. Hemisphere Ø320 x H150.
- 1 piece. Galvanized iron pipe ¾" x 700mm.
- 1 piece. Cork.
- Mounting glue. Not included.

## Preparation

Remove stones and other irregularities so that the hemisphere can lie evenly.

## Assembly

1. Place the hemisphere on a flat or sloping surface, with the flat side down.
2. Apply mounting glue to the hole along the sides.
3. Tap the galvanized iron pipe through the hole and into the ground. There must be room for the plug afterwards.
4. Apply mounting glue to the hole to tie the stopper.
5. Insert the plug.
6. Remove, if necessary, excess adhesive residue.
