

Mounting instructions sphere

Pieces:

- 2 piece. Hemisphere Ø320 x H150.
- 1 piece. Galvanized iron pipe ¾" x 700mm.
- 1 piece. Cork.
- Mounting glue. Not included.

Preparation

Remove stones and other irregularities so that the hemisphere can lie evenly.

Assembly

1. Place one hemisphere on a flat or sloping surface, with the round side down.
2. Apply mounting glue over the entire hemisphere surface.
3. Place the second hemisphere on the first, with the flat side down.
4. Apply mounting glue to the hole along the sides.
5. Knock the galvanized iron pipe through the hole and down into the ground. There must be space for the plug afterwards.
6. Apply mounting glue to the hole to bond plugs.
7. Insert the plug.
8. Remove if necessary. excess adhesive residue.
